COVER LETTER

Dear Sir/Madam,
Please accept my application for the position of web designer/ Web developer/Data Entry/Administrator. Basically Iam a web developer with experience. Iam highly capable of testing a variety of internet applications and finding solutions to clients needs and problems. I enjoy coding new sites from brief and making a site that clients will really love. I also have certification in I would really appreciate the chance to share my skills and enthusiasm with you.

I believe Iam highly capable and experienced for this position. I previously worked at **"It Solutions Bangalore In India"** and currently Iam working at **"Alwaseem Group of Companies Doha Qatar"** for a Year to the same position and I learned a lot about the role Iam now ready to progress my career further. Aside from my technical competencies, on a personal level I also have a talent for building close relationships with other specialists. I possess the communication skills needed to get the best out of others and to get everyone pushing in the same direction.

Right now I am keen to work for a company like yours where I will have an opportunity to work with the brightest and the best in the field of web design.
Please find attached my CV, which I believe shows my stability for the role. If you want to discuss my application, please call me on. I can make myself available for interview at a time convenient for yourselves.

Finally, I would like to thank you for taking the time to consider my application.

Sincerely,

Name: Md Najam Rain

Address: Umm ghuwailina, Doha, Qatar
